Allowable Subject Matter

Claims 3 and 6, now renumbered 1 and 2, are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or render obvious all of the limitations of the claims. More specifically, the prior art of record does not disclose the server of claim 3 or product of claim 6, including the claimed result storing unit, receiving unit, request storing unit, request reading unit, determination unit, execution unit, transmission unit, and prohibition unit, wherein the units function collectively with regard to requests sent from a *same client*, as claimed, and as enabled in Applicant's specification.

Examiner agrees with Applicant's arguments regarding the Colyer and Karger references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
